

INCREASE YOUR RANGE

Embark on longer adventures and cruise with confidence. With the COX Marine diesel engine, you can spend more time enjoying the water and less time worrying about refueling.

WORK HARD, PLAY HARDER

COX Marine diesel motors are the trusted choice for commercial boats that need to navigate far distances or in remote locations. With exceptional fuel efficiency and rugged durability, these engines guarantee peace of mind and reliability not only for commercial captains, but also for recreational boating and fishing enthusiasts.

diesel v8

SAVES YOU MONEY WHILE SAVING THE PLANET

For the most demanding boating conditions, Cox Diesel outboards are the ideal choice. It has undergone extensive testing programs, earning certifications of approval from the EPA Tier 3, RCD II, and IMO II. With low emissions as low as 4.6 g/kWh and up to 30% better fuel efficiency, Cox Marine Outboards not only reduces operating costs but also promotes a more sustainable marine environment.

IT'S TIME FOR A CHANGE

Experience a revolution in the marine industry. Cox Marine Diesel outboards offer a winning combination of fuel efficiency and reliability that surpasses gasoline outboard engines. The diesel outboard sets itself apart being built specifically for marine use.

ABOUT RING POWER CORPORATION

Ring Power Corporation is headquartered in St. Augustine, FL, and is the largest Cox Marine diesel outboard distributor in the United States. Our belief in the product led us to be awarded additional territories to include Georgia, the Carolinas, the entire Eastern seaboard, and the Great Lakes Region, in addition to our original territories of the Caribbean and Florida. Ring Power is not only a contributing shareholder, but the largest distributor for Cox Marine world-wide.
